

## FREE Proficient Pilot Seminar - Sharing the Traffic Pattern

You are invited to join us for a free safety seminar regarding the issues fixed wing pilots sometimes experience when sharing the airport environment with their helicopter friends. Even with thorough and clear radio communications, it can be confusing when helicopter pilots fly different traffic patterns, descend from pattern altitude to the runway in a super short distance, taxi straight to the ramp, etc. After attending this seminar, you will better understand why helicopters do things at the airport airplanes don't normally do, and how we can work together as a team to share the airspace and keep our airport operations safe and enjoyable.

**Directions:** Sweet Aviation is hosting this free safety seminar in the terminal building located at the Smith Field Airport in Fort Wayne, Indiana.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Thu, Oct 1, 2015 - 18:00 EDT**

**Sweet Aviation, LLC - SMD**

**Terminal**

902 W Ludwig Road

Ste 118

Fort Wayne, IN 46825

**Contact: Joel Pierce**
